

To Whom It May Concern,

I'm happy to recommend Duli Maksuti, who worked with us as a React and React Native developer.

He took full ownership of our **Solar X Miner** mobile app (iOS & Android), handling everything from planning and architecture to deployment on the App Store and Google Play. He also supported our web platform, collaborating closely with our internal team to improve and maintain the system.

Throughout the project, he managed tasks effectively, communicated clearly, and made sure everything stayed on track. His work was always high quality, and he was professional and dependable from start to finish.

I'm confident he'll be a great addition to any team or project.

Best regards,
Blondi Aliu
Head of Engineering
Solar X
